

The Annual Christmas Project is a PARISH tradition that provides all parishioners an opportunity to share in the joy of giving with those whose children might not otherwise receive Christmas gifts, or families that might not have a decent meal on their Christmas table.

We collect wish-list items that are then distributed to local organizations who serve less fortunate families at Christmas.

Who receives the collected items?

The Christmas Project serves local families in need. Organizations that help us distribute the gifts serve local families in the South Bay community who have requested assistance and also local schools within the LA archdiocese. Food and toiletries are donated to St. Lawrence of Brindisi's food pantry.
